

FUN POP OUT CARD FOLD

You will need a piece of 4" x 9 3/4" card stock and the Stampin' Trimmer or other cutting/scoring tool.

1. With the cardstock in landscape, align bottom edge at the 1" mark of the Stampin' Trimmer. Place the cutting blade at the 3" mark (on the guide of the blade) and cut down to 7 1/2".
2. Turn card 90° with the bottom edge facing toward the end of the cutter.
3. Align the cardstock at the 3" mark and **score** down to the 3" cut line.
4. Move the cardstock to the 5 1/4" mark and **score** all the way down the paper.
5. Move the cardstock to the 7 1/2" mark and **score** from the cut line to the bottom.
6. After folding on score lines, this piece is now ready to be mounted on a 5 1/2" x 4 1/4" piece of cardstock. **Note:** You will only glue from the 5 1/4" score line to the end of the cardstock to the card base (grayed out area above). Be sure not to adhere the strip that pops out.
